

ENERGY & INFRASTRUCTURE

Gas Pipeline Rehabilitation in Lebanon

We are pleased to announce that Beiruti Attorneys & Counselors at Law acted as legal counsel to **TGS** in connection with its agreement relating to the maintenance and rehabilitation of gas pipeline infrastructure in Lebanon.

The project involves maintenance and rehabilitation works for approximately 30 kilometers of 24-inch diameter gas pipelines and represents an important step toward supporting and upgrading regional energy infrastructure.

The legal team was headed by **Mohammad Beiruti**, Managing Partner of the firm.

We extend our appreciation to TGS for its trust and confidence and wish all parties success in the implementation of this important project.
